I.C. Distribution of Government Services funds (GSF) to entities

Distribution of Government Services funds (CFDA No. 84.397) to entities:

Total amount of Government Services funds made available to LEAs, IHEs, or other entities for obligation from October 1, 2010 through September 30, 2011 (Funds Made Available): **\$0.00**

Provide a list of entities (including state agencies) to which the state has awarded GSF and the total amount of Government Services funds made available to each entity for obligation from October 1, 2010 to September 30, 2011:

Entity Name	Entity ID	Funds Made Available (2010) \$	Funds Made Available\$
DEPARTMENT OF CORRECTIONS	310	122,230,219	0

II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

Education Stabilization funds were used to restore cuts in essential educational services. We were able to retain positions in K-12 education that would not have been provided without the SFSF program. Approximately 90% of the funds were used for salaries/benefits. Some examples of non-salary uses are curriculum materials, web-based educational programs, educational software, professional development and associated travel expenses, and other various general education expenses. We did not use any State Fiscal Stabilization Funds on construction, modernization, renovation, or repair projects.

Please update for the new timeframe:

Education Stabilization funds were used to restore cuts in essential educational services. We were able to retain positions in K-12 education that would not have been provided without the SFSF program. Approximately 90% of the funds were used for salaries/benefits. Some examples of non-salary uses are curriculum materials, web-based educational programs, educational software, professional development and associated travel expenses, and other various general education expenses. We did not use any State Fiscal Stabilization Funds on construction, modernization, renovation, or repair projects. This is the same as the prior year and nothing has changed regarding the use of funds and the impact to our LEAs. The only item that changed was the amount of funds available/spent and the jobs created/retained, which are noted in other areas in this report.

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of LEAs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$19,309,092.00
Contracts for construction, modernization, renovation, or repair projects:	\$0.00
Other:	\$1,679,052.00
Total:	\$20,988,144.00

II.B. Uses of Education Stabilization funds by public IHEs

Provide a concise narrative of how public IHEs in your State have generally used Education Stabilization funds, and the impact that the funds have had on postsecondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

Staff positions were retained in FY 2010 by funding faculty salary and related benefits in support of post secondary education programs and services.

Please update for the new timeframe:

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of public IHEs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	\$0.00
Student financial assistance:	\$0.00
Contracts for modernization, renovation, or repair projects:	\$0.00
Other:	\$0.00
Total:	\$0.00

II.C. Uses of Government Services funds by entities

Provide a concise narrative of how entities in your State (including State agencies) have generally used Government Services funds, and how the funds have affected the State's provision of services from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

To support public safety programs in Washington and protect jobs by for custody staff positions in prison. Receipt of these funds allowed Washington State to avoid making reductions to programs designed to reduce recidivism and other actions, such as deeper workforce reductions throughout state government, that might be necessary without the additional federal funding.

Please update for the new timeframe:

Estimate the total amount of Government Services funds that the State has drawn down on behalf of its subrecipients, from October 1, 2010 to September 30, 2011, under the following categories:

Elementary and secondary education (excluding construction, modernization, renovation, or repair of public school facilities):	\$0.00
Construction, modernization, renovation, or repair of public school facilities:	\$0.00
Modernization, renovation, or repair of public IHE facilities:	\$0.00
Public IHEs (excluding modernization, renovation, or repair of public IHE facilities):	\$0.00
Public safety:	\$0.00
Public assistance:	\$0.00
Transportation:	\$0.00
Other:	\$0.00
Total:	\$0.00

III.A. & B. Tuition and Fees

Describe any actions taken by the State to limit increases in tuition and fees imposed by public IHEs for in-State students:

Entry from previous timeframe:

The State Fiscal Stabilization dollars obviated the need for higher tuition increases in FY 2010. Without these funds, the state would have needed higher tuition levels or substantial reductions in enrollment to manage budget reductions. While tuition increases in 2010 were still quite high, given the nearly unprecedented reduction in state funding, they would likely have been higher without these funds. The legislature sets the maximum rate increase for in-state students, so this 'cap' was selected after reviewing state funding reductions, enrollment reductions and State Fiscal Stabilization Fund appropriations.

Please update for the new timeframe:

No additional information to report as no dollars were spent during this timeframe.

For each 2- or 4-year public IHE, please provide the tuition and mandatory fee amounts for in-State students for school years 2008-2009, 2009-2010, and 2010-2011:

Data should be provided for all four-year and two-year public IHEs. Private IHEs should not be included.

IHE Name	IPEDS	2-year or 4-year	Academic Year	Avg Annual Undergrad Tuition\$	Mandatory Fees\$

IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

Washington enacts budgets for a two-year cycle, beginning on July 1 of each odd-numbered year. For the 2009-2011 biennial budget, Washington faced a \$9 billion shortfall. The \$9 billion shortfall was addressed by a three-part solution as follows: • \$4.4 billion in spending reductions, including no cost-of-living increases for state employees and teachers, increased cost sharing by state employees for health benefits, and actuarial changes to pensions. Funding for low-income health care was reduced 11 percent, other human services were reduced by 8 percent, and higher education was reduced by 7 percent. Cuts to K-12 education were the least of any state service at 5 percent. • \$3 billion of federal stimulus monies in the current and next biennia; and • \$1.6 billion of new resources, including sales tax compliance legislation, use of the Rainy Day Account and capital fund sources, transfers from other funds, and budget-driven revenues such as increased tax enforcement. It is unlikely that Washington would have increased taxes in the absence of federal State Fiscal Stabilization Funds (SFSF). Legislation to raise taxes requires a 2/3rd vote of each house of the state Legislature or voter approval during the state's November general election. Consequently, in the absence of SFSF funds, we believe that level of services and activities supported by SFSF funds would have been reduced or other reductions throughout state government would have occurred. Washington used its SFSF funds to mitigate the impact of state budget reductions on K-12 public schools. SFSF Federal funds in the amount of \$444 million were used to pay over 24,000 teachers at the end of the 2008-09 school year. Another \$377 million in fiscal stabilization funds will be used in the 2009-10 school year to retain 2,400 teachers that would have otherwise been laid off. In the absence of these funds, we believe budget reductions would have also likely occurred in early learning programs and other non-basic education enhancements such as additional staffing for K-4 classes. The budget cut roughly \$556 million in higher education. To offset additional reductions, Washington also used roughly \$100 million SFSF funds to support institutions of higher education. The funds were directed entirely to instructional staff to support student learning. In the absence of these funds, we believe undergraduate tuition would have likely increased more than the 7%-14% authorized by the Legislature. Lastly, Washington used \$182 million of SFSF funds to help pay for 2,800 custody staff positions in prisons. Receipt of these funds allowed Washington State to avoid making reductions to programs designed to reduce recidivism programs in prisons, as well as, drug and alcohol programs proven to decrease criminal activity.

Please update for the new timeframe:

V. Jobs Saved or Created

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated to have been saved or created.

Jobs Reported Saved or Created in the First APR:

	Reported Jobs for 02/17/09 - 09/30/09	Reported Jobs for 10/01/09 - 12/31/09	Reported Jobs for 01/01/10 - 03/31/10	Reported Jobs for 04/01/10 - 06/30/10	Reported Jobs for 07/01/10 - 09/30/10
Education Grants	24,242	3,723.27	2,639.54	3,737.75	3,333.3
Government Services	2,996	3,017	3,089	3,318	0

Jobs Reported Saved or Created in the Second APR:

	Reported Jobs for 10/01/10 - 12/31/10	Reported Jobs for 01/01/11 - 03/31/11	Reported Jobs for 04/01/11 - 06/30/11	Reported Jobs for 07/01/11 - 09/30/11
Education Grants	133.08	149.1	267.18	205.58
Government Services	0	0	0	0

VI. Progress in Advancing Education Reform

A. Reducing inequities in the distribution of highly qualified teachers:

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

Teacher Equity Plan - Reviewed progress of November 2008 Teacher Equity Plan and updated with a 2010 plan, which was posted to our public website on September 28, 2010, at <http://www.k12.wa.us/TitleIIA/HighlyQualifiedTeachers.aspx>

Principal Teacher Evaluation System - In coordination with our state legislation requiring a Principal/Teacher Evaluation System, we have created and published a survey to our 295 school districts requiring them to return them by January 21, 2011. We are on target with meeting the timelines and requirements for all indicators/descriptors as approved in our Phase II application. Results of the survey will be posted on our website by April 2011. Technical assistance has been a significant aspect of the initial data collection for this section of the reporting requirements. OSPI staff continue to support districts in understanding the submission elements and plan to offer guidance and technical assistance in our posting of the results.

Please update for the new timeframe:

The Teacher/Principal Evaluation Pilot (TPEP) instituted last year aims to reduce inequities in the distribution of highly qualified teachers by providing a system of evaluation that focuses on professional growth, improving the teaching force as a whole through a process of goal setting and focused professional development. Over the last year, our pilot sites have implemented the models they developed in the 2010-11 school year. Regional Implementation Grants (RIGs) were created and provided implementation guidance through an ESD consortia model. Our 65 RIG districts adopted the work of the pilots to learn about the new systems and begin their piloting and professional learning the year prior to full state-wide implementation, increasing the number of teachers and principals benefitting from the new evaluation system. The TPEP Steering Committee created a TPEP Task Force to examine issues around student growth data, evaluator training, and perception survey data as they pertain to evaluation. The Task Force was a blend of K-12 teachers, principals, and administrators from our pilot sites and beyond, as well as a mix of K-12 and Higher Ed experts. Washington State Engrossed Substitute Senate Bill 5895

strengthened the language on the use of student growth data in evaluations, provided more clarity around the implementation process and schedule, and requires OSPI to establish new rules for the evaluation system. The Office of Superintendent of Public Instruction (OSPI) has convened another Task Force to implement the ESSB 5895 student growth requirements. The agency must adopt a method of reaching a final summative evaluation score by December 1, 2012 and select the preferred instructional and leadership frameworks by September 1, 2012. Decisions about those issues are expected to come this summer, giving our pilot and RIG districts the full year to use the system under the requirements of 5895 and all districts to adopt policies that lead to full implementation by 2013-14. Additionally, OSPI has developed and implemented an electronic Highly Qualified Teacher (HQT) Tool. This has relieved the burden on school districts to count teachers and classes. This data collection has been automated by the implementation of the new electronic system and has: ? Increased transparency ? Increased accountability by the districts to report accurately ? Significantly increased more accurate data collection statewide ? Collects increased data on contracted and Alternative Learning programs that are carrying out public education services in relation to HQT. Our annual update to the Teacher Equity Plan is currently in progress and will be publicly posted by the end of July, 2012.

Certification of review of submission

Note: This page should be certified by the governor or an authorized representative of the governor.

☒ I certify that, to the best of my knowledge, the information in this report is accurate and complete and conforms to the definitions and instructions used in the *Reference and User Manual*.
